BUSINESS TELECOM ADVOCATES, LLC SAVES TELAMON CORPORATION OVER \$73,000

Telamon Corporation starting working with Business Telecom Advocates in January of 2010. After conducting the initial audit, BTA found overcharges of more than \$39,000 with one of our carriers. Through aggressive negotiations, BTA was able to secure a refund of almost \$13,000 and obtain rates that will save Telamon

Corporation over \$60,000. BTA's dedication to our needs and "can do" attitude throughout this process was exemplary. We were able to recover and save a lot of money as a direct result of working with BTA and continue working with them today. Their professionalism and experience will get results and they have

our highest recommendation.

*David Crooke,
Telamon Finance Director*

National News

Rather than improve operational efficiency in order to be more competitive, some telecom companies tried to trick consumers into giving them their

business, according to an article by CBS News. Even some of the most reputable phone companies have been accused of "competing by cheating" including

continuing to send bills after service is terminated, and billing for services never ordered.
